MVCode
We teach kids to code.

Coding Instructor

Program Summary:
MV Code Club is an after school and summer program located in downtown Mill Valley, Central Marin, San Francisco, and now Redwood City that teaches students in 1st - 8th grade to code. We use a variety of different platforms including MIT Scratch, Phaser, HTML, Javascript, Unity 3D, and Arduino. Students follow our custom curriculum to build their own games, websites, and robotics.

We have a program being taught at the Gilroy Library on Wednesday's starting in January. Training would be in December in Redwood City.

Job Description:
Instructors are responsible for answering student's questions, providing feedback on their projects, and helping keep them on task. We keep a low student teacher ratio and encourage our instructors to design their own lessons based on games they develop. Come join the fun! This is a part-time position.

Starting pay $17-$25 DOE
