Three things to know this month:

(1) Our mapping team is partnering with college staff to upload the college's ADT maps onto Program Mapper, an application that will allow us to showcase program maps on our website. Our goal is to have all ADT maps available on our website in spring 2022. The next step will be to develop maps for our remaining degrees.

(2) Eight Guided Pathways team members will be attending the California Guided Pathways Institute, held virtually on Nov. 17th through Nov. 19th. In this institute, we will be learning:

- How we can support students' career exploration and development with equity in mind
- How to re-think student onboarding
- Ways we can align our GP activities with our equity goals

(3) The Guided Pathways team will be hosting a session during January's Professional Development Day on how we can ensure learning within our CAPs. Stay tuned for more information!
