GAVILAN JOINT COMMUNITY COLLEGE DISTRICT
Citizens' Oversight Committee Meeting
June 23, 2014 – 6:00 p.m.
Gavilan College
5055 Santa Teresa Boulevard, Gilroy, CA 95020
Student Center, North/South Lounges

AGENDA ·

- I. CALL TO ORDER
 - 1. Roll Call
- II. APPROVAL OF AGENDA
- III. CONSENT AGENDA
 - 1. Minutes February 24, 2014
- IV. COMMENTS FROM THE PUBLIC

This is a time for the public to address the Citizens' Oversight Committee (a maximum of five minutes will be allotted to each speaker)

- V. <u>INFORMATION ITEM(S)</u>
 - 1. Item(s) presented at board meetings for information or approval by the Board of Trustees:

March 11, 2014

- Hearing to Consider Approval of Necessity Authorizing Acquisition by Eminent Domain to Certain Easement Interests for the Gilroy Campus Modernization Project and Authorizing and Directing Legal Counsel to Institute Condemnation Proceedings (APN-808-23-004
- Consider and Approve the Addendum to the Mitigated Negative Declaration Adopted by the Board in November 13, 2012, for the Gilroy Campus Modernization Project
- Consider and Approve Resolution #968 Determining that the Public Interest and Necessity Require Acquisition of Real Property for Public Purposes and Authorizing Proceedings in Eminent Domain for the Gilroy Modernization Project (APN 808-23-004)
- Consider and Approve Resolution #969 to Accept Bid for Replacement of Water Supply System Project

April 8, 2014

Consider and Accept Bid for the Parking lot C Expansion Project

		(
		(

May 13, 2014

- Measure E Bond Quarterly Financial Status Report at March 31, 2014
- Rodriguez Real Estate Services, LLC 3rd Amendment for Consulting Services Related to Campus and Off-Site Land Development Projects
- BFGC-IBI Group Architecture and Planning Project Assignment Amendments (PAAs)
- Project Inspector Service Agreements with DFH Inspections, Inc.
- Geotechnical Service Agreements with Cleary Consultants, inc.
- Laboratory of Record Service Agreements with HP Inspections, Inc.

June 10, 2014

- Five Year Capital Construction Plan and Initial Project Proposals, Resolution No. 974
- Subordination Request Relating to Refunding Bonds Issued by the Successor Agency to the Redevelopment Agency of the City of Hollister for the Hollister Community Development Project
- BFGC-IBI Group Architecture and Planning Project Assignments Amendments (PAAs)

GAVILAN COLLEGE MISSION

Gavilan College cultivates learning and personal growth in students of all backgrounds and abilities through innovative practices in both traditional and emerging learning environments; transfer pathways, career and technical education, developmental education, and support services prepare students for success in a dynamic and multicultural world.

PUBLIC COMMENTS -- Individuals wishing to address the Citizens' Oversight Committee (COC) on a non-agenda item may do so during the Comments from the Public.

However, no action may be taken on an item, which is not on the agenda.

The public is welcomed to address the COC on particular agenda items and may do so at the time it is presented. Guidelines for Comments from the Public will be as follows:

A maximum of 5 minutes will be allotted to each speaker with a maximum of 20 minutes to a subject area. No disruptive conduct will be permitted at any Gavilan College Citizens' Oversight Committee meeting.

AGENDA ITEMS – Individuals wishing to have an item appear on the agenda must submit the request in writing to the Superintendent/President two weeks prior to the meeting. The COC Chair and Superintendent/President will determine what items will be included in the agendas.

Items listed under the Consent Agenda are considered to be routine and are acted on by the COC as one motion. There is no discussion of these items prior to COC vote unless a member of the COC, staff, or public requests those specific items are discussed and/or removed from the Consent Agenda. It is understood that the Administration recommends approval on all consent items. Each item on the Consent Agenda approved by the COC shall be deemed to have been considered in full and adopted as recommended.

In compliance with the Americans with Disabilities Act, if you need special assistance to access the board meeting room or to otherwise participate at this meeting, including auxiliary aids or services, please contact Angie Oropeza at 408-848-4711. Notification at least 48 hours prior to the meeting will enable the District to make reasonable arrangements to ensure accessibility to the COC meeting.

Members of the public may inspect agenda documents distributed to the committee at the President's Office, SC130, during regular working hours, or at http://www.gavilan.edu/board/agenda.php

MINUTES

I. <u>CALL TO ORDER</u>

1. Roll Call and Introductions

Tim Day called the meeting to order at 6:02 p.m.

Committee Members Present: Suzanne Bulle, Cindy Dalla, Tim Day, Sandy Habr,

Gene Sakahara, Ryan Shook

Committee Member Absent: Jack Bachofer

Dr. Steven M. Kinsella, Superintendent/President Terry Newman, Interim Senior Director of Administrative Services Angie Oropeza, Recorder

Others in attendance: Tina Trice, Crowe Horwath

II. APPROVAL OF AGENDA

MSC (S.Habr/R.Shook) 6 aye, 0 nays, to approve

III. CONSENT AGENDA

Minutes – November 25, 2013
 MSC (R.Shook/S.Bulle) 6 aye, 0 nays, to approve

IV. COMMENTS FROM THE PUBLIC

Tom Breen, Gavilan College Board of Trustees – acknowledged that in six days it will be ten years since the Measure E Bond was passed. On behalf of the Board, he thanked everyone for this important public service work they do on the committee.

V. INFORMATION ITEM(S)

1. Item(s) presented at board meetings for information or approval by the Board of Trustees:

December 10, 2013

• Lease-Purchase Agreement Between Gilroy Unified School District and Gavilan Joint Community College District

January 14, 2014

- Citizens' Oversight Committee Resignation
- Measure E Bond Program Budget Alignment

February 11, 2014

- Measure E Bond Quarterly Financial Status Report at December 31, 2013
- FY 2012 2013 Measure E General Obligation Bond Audit Reports
- Gilbane Building Company Project Assignment Amendments (PAAs)
- BFGC-IBI Group Architecture and Planning Project Assignment Amendments (PAA)

Dr. Steve Kinsella reviewed the Measure E items presented to the Board of Trustees and he, Terry Newman, and Tina Trice from Crowe Horwath gave the following information:

- The college is selling the modular units purchased with Measure E funds that were used for the early college high school and for swing space during the various renovation projects. Some will be kept in anticipation of their use when the PE building is renovated. The proceeds will be deposited back into Measure E funds.
- A Citizens' Oversight Committee member resigned.
- There is nothing new in the program budget alignment; everything is as it should be.
- The FY 2012-2013 Measure E General Obligation Bond Audit reports a clean, unmodified opinion. There were no management comments or findings representing reportable conditions, material weaknesses, or instances of noncompliance to the audit. All reports are posted on the Gavilan webpage.
- Gilbane is a construction maintenance company. They are assisting the college with Lot C, the water tank, ant the water replacement system projects. They are the liaison between all construction projects and the early college high school project. BFGC-IBI is an architectural firm that assists the college with designs and getting them approved. The two firms provide the technical services we don't staff. Two bathrooms will be installed in the multi-purposes building for students and staff.

VI. <u>DISCUSSION ITEM(S)</u>

1. Update Measure E Activities

Dr. Steve Kinsella reported that we have approximately \$27 million unexpended Measure E funds. The reason they have not been expended is because we are waiting for habitat mitigation from CEQA (California Environmental Quality Act) for both San Benito County and Coyote Valley. The last major amount of money is match money the state requires to get the PE building funded by the state. It is a \$14 million project and we have \$7 million set aside. We had done the same with the library and the theatre. We can't wait long enough for the library to get funded by the state and can't justify holding the money because we would be too far out from the date we funded the bond. So we've taken that money and the unexpended money to set up the South Bay Public Safety Training Consortium at Coyote Valley. They are currently in year one of a three-year lease. At the end of the three years they need to be in a new location. We are waiting to get the habitat clearance to move on it. We also have \$2 million of equipment purchases and replacements. We are waiting in line for our list of projects to be funded by the state. We need to wait for the state funds because we are not able to fully fund the projects on our own. We must spend Measure E by the end of 2015. After that we must justify why we have not spent it, which we can. The Parking Lot C project will be completed this summer.

VII. ACTION ITEM(s)

1. Set Next Meeting Date(s)
MSC (S.Bulle/S.Habr) 6 ayes, 0 nays to schedule the next meeting at June 23, 6:00 p.m.

VIII. CLOSING ITEMS

1. Adjournment

The meeting was adjourned by consensus at 6:30 p.m.

SUBJECT: Hearing to Consider Approval of Necessity Authorizing Acquisition by Eminent Domain to Certain Easement Interests for the Gilroy Campus Modernization Project and Authorizing and Directing Legal Counsel to Institute Condemnation Proceedings (APN-808-23-004)

	Resolution: BE IT RESOLVED,
X_	Information Only
	Action Item

Proposal:

That the Board of Trustees conduct a public hearing to consider approval of necessity authorizing acquisition by eminent domain to certain easement interests for the Gilroy Campus Modernization Project and authorizing and directing legal counsel to institute condemnation proceedings (APN-808-23-004).

Background:

On November 13, 2012, the Board approved the Gavilan College Gilroy Campus Modernization Project, which includes a water tank replacement project necessary to protect the safety of the College's students, staff, and faculty. Specifically, the College desires to add more water tank storage to reduce the refill rate of its tanks, as well as to add a second water well to provide redundancy and effectively double the College's well production rate (the "Project"). The Project is intended to respond to concerns raised by the Fire Marshal regarding fire supply recovery after a fire event on campus. Currently, the National Fire Protection Agency requires fire supply to be fully recovered in 8 hours, which would require the College's current well and pump to be modified to produce 1,300 GPM. This demand is beyond the capacity of the existing well. In addition to fire re-fill rates, the College also needs a back-up source of water in case the current well fails.

On March 11, 2014, in connection with the Project, the Board will be asked to adopt Resolution #968 ("Resolution of Necessity"), which would authorize acquisition by eminent domain of easements interests ("Easements") encumbering a portion of the real property identified as 4395 Monterey Road, Gilroy, California, Assessor's Parcel Number 808-23-004 ("Property"). The Easements are needed to construct, operate, and maintain a second water well and pipelines on the Property as part of the Project.

According to Code of Civil Procedure section 1245.235, the governing body of a public entity may adopt a Resolution of Necessity only after the governing body has given each person whose property is to be acquired by eminent domain and whose name and address appears on the last equalized county assessment roll notice and a reasonable opportunity to appear and be heard on the matters referred to in Section 1240.030, that is, (1) that the public interest and necessity require the Project, (2) that the Project is planned or located in the manner that will be most compatible with the greatest

public good and the least private injury, and (3) that the property sought to be acquired is necessary for the project.

On February 24, 2014, the College provided written notice by first class U.S. mail and email to the record owners of the Property. The notice advised the owners that on Tuesday, March 11, 2014, at 7:00 p.m. or as soon thereafter as the matter may be heard, at 5055 Santa Teresa Boulevard, Gilroy, California 95020, in the Student Center, North/South Lounge, the Board of Trustees will consider a proposed Resolution of Necessity authorizing acquisition of the Easements by eminent domain. The notice further advised the owners that they have the right to appear before the Board of Trustees and be heard on the matters referred to in California Code of Civil Procedure section 1240.030, listed above.

In advance of adopting the Resolution of Necessity, the Board is requested to hold a public hearing to receive input on the following matters:

- 1. Whether the public interest and necessity require the Project;
- 2. Whether the Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury;
- 3. Whether the real property sought to be acquired is necessary for the Project; and
- Whether the College made an offer to the owner of record, to purchase the Easements pursuant to Government Code section 7267.2.

The Board is requested to provide any and all owners of the Property the opportunity to appear and be heard on the matters listed above. The hearing is not intended to address the valuation of the Easements. Failure by the Property owner(s) to appear or to participate in the hearing has no bearing on whether the owners agree with the purchase offer previously made by the College to the owners. No action is proposed as part of this hearing.

Budgetary Implications

The water replacement system project is funded by the State of California.

Follow Up/Outcome:

Following the hearing, the Board will be asked as a separate item to consider adopting Resolution #968, a Resolution of Necessity.

Recommended By: Terry Newman, Senior Director of Administrative Services

	ECT: Consider and Approve the Addendum to the Mitigated Negative Declaration adopted by ard on November 13, 2012, for the Gilroy Campus Modernization Project
	Resolution: BE IT RESOLVED,
	Information Only
X	Action Item

2.(c)

Proposal:

That the Board of Trustees consider and approve an Addendum to the Mitigated Negative Declaration adopted by the Board on November 13, 2012, for the Gilroy Campus Modernization Project.

Background:

On November 13, 2012, the Board of Trustees adopted the Initial Study (IS) and Mitigated Negative Declaration (MND) for the Gilroy Campus Modernization Project. The Project was approved by the Board on November 13, 2012 and a Notice of Determination was filed on November 20, 2012.

When a change occurs to a proposed project or its surrounding circumstances following certification of an environmental impact report ("EIR") or negative declaration, CEQA review may be required in certain instances. An addendum is appropriate in this case because the confirmation of location of a required second well within the already narrowly defined area at most requires only a minor, technical change to the IS/MND, and does not result in any additional significant impacts. No subsequent EIR or negative declaration is required to be prepared.

Attached is the "Addendum to the Previous Adopted Initial Study and Mitigated Negative Declaration for the Gilroy Campus Modernization Project."

Budgetary Implications:

None.

Follow Up/Outcome:

None. Addendum will be posted on the college website with the approved MND.

ADDENDUM TO THE PREVIOUSLY ADOPTED INITIAL STUDY AND MITIGATED NEGATIVE DECLARATION FOR THE GILROY CAMPUS MODERNIZATION PROJECT (State Clearinghouse Number 2012092051)

A. INTRODUCTION

On November 13, 2012, the Board of Trustees ("Board") of the Gavilan Joint Community College District ("College") adopted the Initial Study and Mitigated Negative Declaration ("IS/MND") for the Gilroy Campus Modernization Project, described as the implementation of several facilities and infrastructure upgrades at the College's Gilroy campus ("Project"), including but not limited to water storage, tank distribution, and well improvements. The Project was approved by the Board on November 13, 2012 and a Notice of Determination was filed on November 20, 2012.

The IS/MND identified two alternative locations for the well improvements, denoted as Option A and Option B, within a narrowly defined area (estimated to be less than 1500 feet apart). The potential impacts of developing a well under either Option A or Option B were already analyzed in the IS/MND. Since the MND was approved, the College has conducted testing and determined that Option A is the preferable option for its new well and related improvements. When a change occurs to a proposed project or its surrounding circumstances following certification of an environmental impact report ("EIR") or negative declaration, further CEQA review may be required in certain instances. (See, Pub. Resources Code § 21166.) As detailed below, an addendum is appropriate in this case because the confirmation of location of the well within the already narrowly defined area at most requires only a minor, technical change to the IS/MND, and does not result in any additional significant impacts or increases in the severity of previously-identified impacts, nor does it alter the analyses regarding any mitigation measures adopted or not adopted by the Board. (See, Cal. Code Regs., tit. 14, § 15162(a).)

B. APPLICABLE LAW

According to section 15162(a) of the CEQA Guidelines (Cal. Code Regs., tit. 14, §§ 15000, et seq.), when a negative declaration has been adopted for a project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in the light of the whole record, one or more of the following:

- (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
- (2) <u>Substantial changes occur with respect to the circumstances under</u> which the project is undertaken <u>which will require major revisions</u> of the previous EIR or negative declaration due to the involvement

- of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
- (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following:
 - (A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;
 - (B) Significant effects previously examined will be substantially more severe than shown in the previous EIR;
 - (C) <u>Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or</u>
 - (D) <u>Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR</u> would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

(Emphasis added.)

Section 15162(b) states that if changes to a project or its circumstances occur or new information becomes available after adoption of a negative declaration, the lead agency shall prepare a subsequent EIR if required under subdivision (a). Otherwise, the lead agency shall determine whether to prepare a subsequent negative declaration, an addendum, or no further documentation. Per Section 15164(b), an addendum to an adopted negative declaration may be prepared if only minor technical changes or additions are necessary or none of the conditions describe in CEQA Guidelines section 15162 calling for the preparation of a subsequent EIR or negative declaration have occurred.

C. PREVIOUSLY ADOPTED IS/MND AND SUBSEQUENT CONFIRMATION OF NEW WELL LOCATION

On behalf of the College, David J. Powers & Associates, Inc., prepared and circulated the Draft IS/MND for the Project on September 25, 2012. The MND concluded that the Project could have a potentially significant effect on the environment, however, there would not be a significant effect because mitigation measures described in the IS/MND would reduce the impacts to a less than significant level. (MND, pg. 14.) Following the

30-day public comment period, the Board approved the IS/MND and the Project on November 13, 2012.

The Project consists of several facilities and infrastructure upgrades at the College's Gilroy campus, including the following:

- Water Storage, Tank Distribution and Well Improvements
- Gilroy Early College Academy (GECA) Consolidation
- Parking Lot C Expansion
- Outdoor Classrooms
- Demolition of Former Police Academy Portables
- Demolition of Building CJ500

With regard to the Water Storage Tank, Distribution, and Well Improvements, the College currently operates a 1,000,000 gallon water tank and existing water well. The existing water well is located on real property that is not owned by the College, known as 4395 Monterey Road, Gilroy, California, APN 808-23-004 ("Monterey Road Property"), pursuant to easement rights held by the College. The IS/MND explained that the College proposed to build a replacement water system for the existing 1,000,000 gallon water tank with two new 669,000 gallon reservoir tanks at the same location in the foothills above the campus. (Initial Study ("IS"), pg. 4.) Water supply to the tanks will be provided by implementing improvements to the existing well and installing an additional well directly to the east to provide supplemental water supply ("Option A"). (Id.) According to the IS/MND, the College initially considered installing two new wells adjacent to Mesa Road in the agricultural fields east of the project site, while decommissioning the existing well ("Option B"). (Id.) However, the College had been unsuccessful in contacting the owners of the property on Mesa Road ("Mesa Road Property") after repeated efforts, and therefore concluded that Option B may not be feasible. (Id.) The College also believes that Option A results in the least amount of burden on neighboring property owners, since it would install a new well on the same property as the existing well.

According to the IS/MND, in both Option A and Option B, the two wells would only be run simultaneously after a time of high water demand on campus, such as a fire event. In normal operation the wells would alternate in service. (*Id.*) Either option would be capable of delivering adequate water supply to re-fill the water tanks within the National Fire Protection Association requirement of eight hours. Since the IS/MND was adopted and the Project approved, the College has obtained a License Agreement with the owners of the Monterey Road Property, and has conducted preliminary testing of such Property. Based on the testing results, the College's design team concluded that a new well in the area described as Option A could reliably yield from 360 gpm to 540 gpm. The data substantiated a high probability of achieving a production rate that equals or exceeds the existing well and corresponds with the assumptions made as part of the Project. Based on this data, the College has confirmed that Option A is the preferable option. The College is in the process of attempting to acquire easement rights encumbering the Monterey Road Property in order to install a new well and related improvements under Option A.

The impacts of the well improvements were analyzed in the IS/MND, and did not depend on whether Option A or Option B was chosen. The following is a summary of the impacts and mitigation measures described and included in the IS/MND. As discussed below, selection of Option A for the location of the new well will not result in any additional potentially significant impacts, nor will it increase the severity of those already identified.

- Aesthetic Impacts: The IS/MND concluded that the Project as a whole, inclusive of the new well, would have less than significant aesthetic and visual impacts. Specifically, the Project proposes several facilities and infrastructure upgrades that will result in minor changes to the aesthetic character of the campus. (IS, pg. 22.) The well improvements are not part of the on-campus upgrades and thus are not part of the facilities and infrastructure that may result in minor changes to the aesthetic character of the campus. With regard to the water well improvements, the IS/MND concluded that the installation of underground water distribution lines and wells proposed by the Project would not result in aesthetic changes to the project site and surrounding area because the distribution lines would be underground and the wells would be at ground-level. (Id.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Agricultural: The IS/MND concluded that the Project as a whole, inclusive of the new well, would not have any impact on agricultural land, agricultural activities, or forest resources, and the well improvements specifically would not result in the conversion of farmland to non-agricultural use. (IS, pg. 26.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- e Air Quality: The IS/MND concluded that the Project as a whole, inclusive of the new well, would have less than significant impacts on air quality. With regard to regional and local impacts, the only identified impact related to the well improvements is that the improved water distribution system may result in a slight increase in electricity use related to the increased pumping of water. Indirect air emissions from these potential increase in electricity use would be negligible. (IS, pg. 31.) Also, construction activities such as earthmoving, construction vehicle traffic, and wind blowing over exposed earth, would temporarily affect local air quality. (Id.) It was concluded that the Project would not result in significant air quality impacts, and that implementation of Avoidance Measure AQ-1.1 would further reduce air quality impacts with the construction of the Project. (IS, pg. 32.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.

- Biological Resources: The IS/MND concluded that the Project as a whole, inclusive of the new well, could result in significant impacts to various special-status animal and plant species. (1S, pgs. 42-49.) It was also found that the outdoor classroom and Parking Lot C expansion could result in significant impacts to riparian habitat and protected wetlands. (IS, pgs. 49-51.) As a result of these potentially significant impacts, the College adopted mitigation measures MM BIO-1.1 through MM BIO-9.2. (IS, pgs. 52-62; MND, pgs. 2-11.) The resulting conclusion was that with implementation of these mitigation measures, the Project would not result in significant impacts to biological resources. (IS, pg. 62.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Cultural Resources: The IS/MND concluded that the Project as a whole, inclusive of the new well, could result in potentially significant impacts on the environment. (IS, pg. 66.) Namely, construction activities associated with the proposed project could result in impacts to buried and paleontological resources, should they be discovered on the site. (IS, pgs. 64-65.) Implementation of mitigation measures MM CUL-1 and MM CUL-2 would result in a less than significant cultural resources impact. (IS, pg. 66; MND, pg. 11.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Geology: The IS/MND concluded that the Project as a whole, inclusive of the new well, would not result in any potentially significant impacts on the environment in terms of geology. (IS, pg. 71.) With regard to the water wells specifically, the tanks would be connected to the wells by a water distribution system consisting of pipelines traversing the entire site, portions of which would be located in the sloped areas of the hillside adjacent to the water tanks, which are subject to creep and possible surficial instability related to heavy rainfall, and other portions of which would be located within the Santa Clara Fault Rupture Zone associated with the Carnadero fault trace. (IS, pg. 70.) In addition, it was concluded that the wells and portions of the pipelines would be located within a liquefaction hazard zone. (Id.) The IS/MND concluded that implementation of the recommendations in the site-specific geotechnical investigation prepared for the proposed water distribution system improvements (Appendix C to the IS/MND), along with standard engineering practices, would ensure that no significant geology and soils impacts would occur from implementation of the Project, including impacts related to unstable soil, expansive soil, soil erosion, and the loss of topsoil. (Id.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Greenhouse Gas (GHG) Emission: The IS/MND found that the Project as a whole, including the well improvements, would not generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment,

nor would it conflict with any existing GHG Laws, plans, policies, or regulations adopted by the California legislature, the CARB, or BAAQMD. Therefore, GHG impacts would be less than significant. (IS, pg. 74.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.

Hazards and Hazardous Materials: With regard to the Project as a whole, inclusive of the new well, the IS/MND identified two potentially significant impacts related to hazards and hazardous materials. First, hazardous materials contamination in the agricultural fields east of campus and in the vicinity of the maintenance yard could pose a risk to construction workers and future users of the outdoor classroom. (IS, pg. 79.) Second, lead-based paint could present a risk to workers during demolition on the site. (Id.) With implementation of mitigation measures MM HAZ-1.1 to MM HAZ-2.3, the IS/MND concluded that these impacts would be less than significant. (IS, pgs. 80-81; MND, pg. 12.) Neither of these impacts are affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property.

The water wells would be located in the agricultural fields east of campus, and would supply water to the campus. (IS, pg. 79.) The IS/MND found that it is common to find arsenic, lead, and DDT residue in the soil in Santa Clara County from historic farming operations. (Id.) These contaminants could leach into groundwater beneath the soils. (Id.) Groundwater in the Project area also contains elevated levels of nitrates. (Id.) As a result, the Project includes drilling test wells in the vicinity of the proposed wells to confirm that the untreated well water meets federal Safe Drinking Water Act and California Department of Public Health primary and secondary drinking water standards (Title 22). (Id.) This testing remains to be completed.

None of the conclusions related to hazards and hazardous materials impacts are affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusions are not altered by the College's confirmation of Option A for its new well.

Hydrology and Water Quality: With regard to the Project as a whole, inclusive of the new well, the IS/MND identified one potentially significant impact related to hydrology and water quality: construction activities could temporarily contaminate stormwater runoff from the site. (IS, pg. 87.) With implementation of mitigation measure MM HYD-1, the IS/MND concluded that these impacts would be less than significant. (IS, pg. 89; MND, pg. 13.) This impact is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property.

With regard to the water wells, either Option A or Option B would involve wells located in areas where the known geomorphology should support water production as high as 500 gpm or greater per well head. (IS, pg. 87.) The Project proposed that a test well would be drilled in the vicinity of the proposed wells to provide a current, accurate assessment of geomorphology. (Id.) The testing would ensure that

sufficient groundwater is available to provide the desired pumping rates on an ongoing basis, without lowering the groundwater table or contributing to drawdown of other nearby wells. (Id.) The IS/MND also concluded that the Project would not increase the student capacity of the overall campus, and would not increase water demand on the site; the new wells are primarily proposed to ensure sufficient fire flow and storage tank recharge rates. (Id.) The wells would be used alternately, only to be combined during times of high water demand on-campus, such as fire events. (Id.) For these reasons, the Project would not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table. (Id.)

Also, the groundwater basin in the Project area contains elevated levels of nitrates, and the Project would include drilling test wells in the vicinity of the proposed wells to confirm that the untreated well water meets federal Safe Drinking Water Act and California Department of Public Health primary and secondary drinking water standards (Title 22). (*Id.*) This testing remains to be completed.

The College has since completed preliminary testing of the Option A well site, which substantiated a high probability of achieving a production rate that equals or exceeds the existing well and corresponds with the assumptions made as part of the Project. The testing data and confirmation of Option A for the new well do not affect any of the conclusions in the IS/MND.

- Land Use: The IS/MND concluded that the Project is consistent with the General Plan and Zoning Ordinance, and that the Project would not physically divide an established community, conflict with applicable plans or policies, or result in any other significant land use impacts. (IS, pg. 91.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Mineral Resources: The IS/MND concluded that the Project would not result in any significant impacts from the loss of availability of a known mineral resource. (IS, pg. 92.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Noise: Regarding the Project as a whole, inclusive of the new well, the IS/MND identified noise impacts related to demolition of existing structures construction of the Project, however, it concluded that those impacts would be less than significant. (IS, pgs. 94-96.) Nevertheless, the Project still implemented Avoidance Measure AM NOISE-1.1 to further reduce noise impacts on neighboring properties. (IS, pgs. 95-96.) The IS/MND concluded that the Project would not result in significant noise impacts, and that conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.

- Population and Housing: The IS/MND concluded that the Project as a whole, inclusive of the new well, would have a less than significant impact on population and housing. (IS, pg. 97.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Public Services: The IS/MND concluded that the Project as a whole, inclusive of the new well, would not result in adverse physical impacts associated with a need for new public safety or recreational or educational facilities in order to maintain acceptable levels of service. (IS, pg. 99.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Recreation: The IS/MND concluded that the Project as a whole, inclusive of the new well, would not result in any significant adverse impact to recreation facilities within the City of Gilroy and surrounding area of unincorporated Santa Clara County. (IS, pg. 100.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well. The College recognizes that the IS erroneously referenced the City of Mountain View in its discussion of impacts related to recreation on page 100, and hereby corrects that error through this Addendum.
- Transportation: The IS/MND concluded that the Project as a whole, inclusive of the new well, would have less than significant transportation impacts. (IS, pg. 103.) This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.
- Utilities and Service Systems: The IS/MND concluded that the Project as a whole, inclusive of the new well, would not result in significant impacts to utilities and service systems. (IS, pg. 109.) With regard to the well improvements specifically, the IS/MND states that in either Option A or Option B, two wells would only run simultaneously after a fire event; in normal operation the wells would alternate in service. (IS, pg. 106.) Both options would be capable of delivering adequate water supply to re-fill the water tanks within the National Fire Protection Association requirement of eight hours. (Id.) The physical improvements proposed by the Project would not increase the student capacity of the overall campus, and would not increase water demand on the site. (Id.) With implementation of the proposed improvements, adequate water supply would be available to serve the site. (Id.) There were no significant impacts relating to utilities and service systems identified in the IS/MND. This conclusion is not affected by the location of the new well(s) on the Mesa Road Property or the Monterey Road Property, thus, the conclusion is not altered by the College's confirmation of Option A for its new well.

D. CONCLUSION

The College's confirmation that it will move forward with Option A as the location of its new water well and pipelines does not alter any of the analyses or conclusions contained in the IS/MND, in particular because the impact of a new well under either Option A or Option B was already analyzed in the IS/MND. This confirmation does not constitute substantial changes to the Project or the circumstances under which the Project is undertaken. (15164(a)(1)&(2).) It does not require major revisions to the previouslyadopted MND. (Id.) As discussed above, this confirmation of location does not involve any new significant environmental effects or a substantial increase in the severity of previously identified effects. (Id.) In fact, there is no change in the severity of previously identified effects. Also, while the testing data confirming the desired location of the new well could technically constitute "new information" for purposes of the CEQA Guidelines, such information does not show: (1) that the Project would have one or more significant effects not discussed in the previously-adopted MND, (2) that the significant effects previously examined will be substantially more severe than shown in the previously-adopted MND, (3) that mitigation measures or alternatives previously found not to be feasible would in fact be feasible, or (4) that mitigation measures or alternatives which are considerably different from those analyzed in the MND would substantially reduce one or more significant effects on the environment, but the Project proponents decline to adopt the mitigation measure or alternative. (CEQA Guidelines, § 15164(a)(3).)

In short, there is no change in the analysis regarding significant impacts and mitigation measures or alternatives presented in the IS/MND. None of the circumstances set forth in CEQA Guidelines section 15162 calling for the preparation of a subsequent EIR or MND have occurred, and at most, the confirmation of location would require only a minor technical change to the previously-adopted IS/MND. Therefore, an addendum to the MND is appropriate, and no subsequent EIR or negative declaration is required to be prepared. In fact, there is truly no technical change because the impacts of either Option A or Option B were already analyzed in the IS/MND. Nevertheless, this Addendum has been prepared to maximize transparency and to allow for public comment through consideration and adoption at a publicly noticed meeting.

Gavilan Joint Community College District Governing Board Agenda

March 11, 2014

Consent Agenda Item No. Information/Staff Reports No. Discussion Item No. Old Business Agenda Item No. New Business Agenda Item No. Administrative Services

2.(d)

SUBJECT: Consider and Approve Resolution #968 Determining that the Public Interest and Necessity require Acquisition of Real Property for Public Purposes and Authorizing Proceedings in Eminent Domain for the Gilroy Modernization Project (APN 808-23-004)

Х	Resolution: BE IT RESOLVED, that Resolution #968 be approved.
	Information Only
X	Action Item

Proposal:

That the Board of Trustees consider and approve Resolution #968 determining that the public interest and necessity require acquisition of real property for public purposes and authorizing proceedings in eminent domain for the Gilroy Modernization Project. (APN 808-23-004)

Background:

Attached is a Staff Report of Findings on Public Interest and Necessity for Parcel Number 808-23-004. Also attached is Resolution #968, "Determining that the Public Interest and Necessity require Acquisition of Easements for Public Purposes and Authorizing Proceedings under Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure, including, but not limited to Sections 1240.120, 1240.125, AND 1245.220, for a Portion of the Property described as 4395 Monterey Road, Gilroy, California, Assessor's Parcel Number 808-23-004, for the Gilroy Campus Modernization Project."

Certain easements are needed to serve the water tank replacement project which is necessary to protect the safety of the college's students, staff and faculty. The college desires to add a second water well to provide redundancy and effectively double the College's well production rate (well improvements). The well improvements are intended to respond to concerns raised by the Fire Marshall regarding fire supply recovery after a fire event on campus. This demand is beyond the capacity of the existing well.

This resolution is a necessary step to acquire certain real property in order to add a second water well. The ideal way to acquire property is through negotiation and not through the litigation process, however to ensure that the college is able to acquire the easements on a timely basis, including to meet the construction scheduled required to avoid jeopardizing state funding for the Project, this Resolution of Necessity is needed at this time.

Budgetary Implications:

The water replacement system project is being funded by the State of California.

1. 3/11/14 in Orthga Follow Up/Outcome:

With board approval of the resolution, the district will direct legal counsel to proceed. The President and designees will be authorized to execute instruments as may be necessary.

GAVILAN JOINT COMMUNITY COLLEGE DISTRICT Staff Report of Findings on Public Interest and Necessity 4395 Monterey Road, APN 808-23-004

March 11, 2014

TITLE AND SUBJECT

Conduct a Public Hearing and Adopt Resolution #968 Determining that the Public Interest and Necessity Require Acquisition of Easements for Public Purposes and Authorizing Proceedings Under Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure, Including, but not Limited to, Sections 1240.120, 1240.125, and 1245.220, for a Portion of the Property Described as 4395 Monterey Road, Gilroy, California, Assessor's Parcel Number 808-23-004, for the Gilroy Campus Modernization Project

DESCRIPTION/DISCUSSION

The Board has been provided with a copy of Resolution #968 ("Resolution"), which would authorize the acquisition of easements for public purposes by exercising the College's powers under Education Code section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure, including, but not limited to, Sections 1240.120, 1240.125, and 1245.220. The Resolution requires approval by at least two-thirds majority of the Board. The real property that is subject to the Resolution consists of a portion of a parcel of property, owned by Bert D. Millen and Gloria P. Millen, Trustees under Revocable Trust Agreement, Dated August 22, 1980; Linda Anne Pelliccione, Diana Marie Pelliccione, Lisa Anne Fellows, and Deborah Marie Sigala as Trustees of the Testamentary Trust Created by Judgment of Final Distribution filed March 9, 1990 in the Estate of Paul F. Pelliccione, also known as Paul Pelliccione, deceased, Case No. 121211, Superior Court of California, County of Santa Clara, and Recorded March 23, 1990 in Book L298, Page 52, Santa Clara County Official Records; Mark P. Millen, and Michael D. Millen (collectively, "Owners"), and located on the east side of Santa Teresa Boulevard. The entire parcel bears Assessor's Parcel Number 808-23-004 ("Property") and the property sought to be acquired consists of easement interests that are legally described in Exhibit "A" and depicted in Exhibit "B" to the Resolution (the "Easements").

The Easements are needed to serve the water tank replacement project as part of the College's Gilroy Campus Modernization Project ("Project"), which is necessary to protect the safety of the College's students and faculty. Specifically, the College desires to add more water tank storage to reduce the refill rate of its tanks, as well as to add a second water well to provide redundancy and effectively double the College's well production rate ("well improvements"). The well improvements are intended to respond to concerns raised by the Fire Marshal regarding fire supply recovery after a fire event on campus. Currently, the National Fire Protection Agency requires fire supply to be fully recovered in 8 hours, which would require the College's current well and pump to be modified to produce 1,300 gallons per minute (GPM). This demand is beyond the capacity of the existing well. In addition to fire refill rates, the College also needs a back-up source of water in case the current well fails.

As set forth in Resolution #968, the Board will make the following findings:

1. The public interest and necessity require the Project.

2. The Project is planned or located in the manner that would be the most compatible with the greatest public good and the least private injury.

3. The real property sought to be acquired is necessary for the Project.

- 4. The College has offered to purchase the Easements in compliance with the statutory requirements.
- 5. The College has the statutory authority to acquire the Easements be eminent domain.
- 6. The College has complied with California Environmental Quality Act (CEQA) requirements.

The following information is provided as a basis for the Board to make the required findings:

1. The public interest and necessity require the Project.

Currently, water is supplied to the College's Gilroy campus by the existing well located on the Property. During the tank replacement design phase of the Project, the Fire Marshal raised concerns about fire supply recovery after a fire event on the campus. Currently, the National Fire Protection Agency requires fire supply to be fully recovered in 8 hours, which would require the existing well and pump to be modified to produce 1,300 GPM. This demand is beyond the capacity of the existing well, thus, it is insufficient to meet Fire Protection Agency standards and could endanger the College's students and faculty. In addition to fire refill rates, the College requires a back-up source of water in case the existing well fails due to the fact that both the well and pump are over 50 years in age. If the existing well were to fail, it would take months before a new well could be drilled and production restored, thus, the College's water supply would be jeopardized.

Given these concerns, the Project includes adding more tank storage to reduce the water refill rate as well as adding a second well to provide redundancy and effectively double the College's well production rate. The well improvements are necessary to protect the safety of the College's students and faculty, particularly in the event of a fire on campus.

2. The Project is planned or located in the manner that would be most compatible with the greatest public good and the least private injury.

The well improvements aspect of the Project is intended to install pipelines and a new well directly to the east of the College's existing well on the Property. Locating the new well in such location will result in the least burden on private interests since it would extend easement rights that are already held by the College. The Easements would be located along the northern boundary of the Property to foster the least amount of burden on the Property, and the pipelines are intended to be installed underneath a dirt road on the Property. Also, as discussed below, the College commissioned preliminary testing of the proposed location of the new well. The data resulting from the testing substantiated that the proposed location is the recommended site for the new well, and is thus compatible with the greatest public good.

3. The real property sought to be acquired is necessary for the Project. On behalf of the College, C2G/Civil Consultants Group, Inc., conducted preliminary testing of the proposed site for the new well. Through this preliminary analysis, the consultants determined that the best location for a new well is further away from campus and closer to

Highway 101, which would require extending the College's existing easement further to the east and acquiring additional easement rights for a new well. On January 30 and 31, 2014, the consultants constructed a test well boring, sample collection and E-log. The test well boring was drilled in the agricultural field on the Property approximately 800 feet easterly of the College's existing well, within the Easements sought to be acquired by the College. Based on the data obtained, the consultants recommended that the College pursue a new well in the vicinity of the test well. The data substantiated a high probability of achieving a production rate that equals or exceeds the existing well and corresponds with the assumptions made during the tank replacement project. Thus, the College requires the Easements to construct its new well and related improvements on the Property.

4. The College has offered to purchase the property in compliance with the statutory requirements.

The College used the services of appraiser Charles R. Marqueling of Valbridge Property Advisors to determine the fair market value of the Easements, which Mr. Marqueling concluded is \$2,700 as of February 10, 2014. On February 24, 2014, the District made an offer to the Owners of the Property to purchase the Easements for more than their fair market value, \$5,000, and offered an additional amount up to \$5,000 for the owners to obtain an independent appraisal. The College's offer to purchase the Easements fully complied with the requirements of California Government Code § 7267.2. If the Resolution of Necessity is adopted, the College is prepared to continue negotiations to acquire the Easements. The ideal way to acquire property is through negotiation and not through the litigation process, however, to ensure that the College is able to acquire the Easements on a timely basis, including to meet the construction schedule required to avoid jeopardizing state funding for the Project, this Resolution of Necessity is needed at this time.

5. The College has the statutory authority to acquire the real property be eminent domain. California Education Code § 70902(b)(13), Code of Civil Procedure §§ 1240.120, 1240.125, and 1245.220, and Section 19 of Article I of the California Constitution empower the College to acquire the Easements by eminent domain.

6. The College has complied with California Environmental Quality Act (CEOA) requirements.

On behalf of the College, David J. Powers & Associates, Inc., prepared and circulated a Draft Initial Study and Mitigated Negative Declaration ("IS/MND") for the Project on September 25, 2012. Following the 30-day public comment period, the Board adopted the IS/MND and approved the Project on November 13, 2012. A Notice of Determination was filed on November 20, 2012. (State Clearinghouse Number 2012092051.) The IS/MND identified two alternative locations for the well improvements, denoted as Option A and Option B, within a narrowly defined area (estimated at less than 1500 feet apart). The potential impacts of developing a well under either Option A or Option B were analyzed in the IS/MND. Since the MND was approved, the College has conducted testing and determined that Option A is the preferable option for its new well and related improvements as part of the Project. Option A involves constructing a new well on the Property and requires acquisition of the Easements.

The College's confirmation that it intends to move forward with Option A as the location of its

new water well and pipelines did not alter any of the analyses or conclusions contained in the IS/MND, in particular because the impact of a new well under either Option A or Option B was already analyzed in the IS/MND. Such confirmation does not constitute substantial changes to the Project or the circumstances under which the Project is undertaken. It does not require major revisions to the previously-adopted MND, and does not involve any new significant environmental effects or a substantial increase in the severity of previously identified effects. In fact, there is no change in the severity of previously identified effects. Also, while the testing data confirming the desired location of the new well could technically constitute "new information" for purposes of the CEQA Guidelines, such information does not show: (1) that the Project would have one or more significant effects not discussed in the previously-adopted MND, (2) that the significant effects previously examined will be substantially more severe than shown in the previously-adopted MND, (3) that mitigation measures or alternatives previously found not to be feasible would in fact be feasible, or (4) that mitigation measures or alternatives which are considerably different from those analyzed in the MND would substantially reduce one or more significant effects on the environment, but the Project proponents decline to adopt the mitigation measure or alternative.

Since there was no change in the analysis regarding significant impacts and mitigation measures or alternatives presented in the IS/MND, none of the circumstances set forth in CEQA Guidelines section 15162 calling for the preparation of a subsequent EIR or MND have occurred, and at most, the confirmation of location would require only a minor technical change to the previously-adopted IS/MND, the College prepared and approved an addendum to the MND. Although there was truly no technical change because the impacts of either Option A or Option B were already analyzed in the IS/MND, the Addendum was prepared to maximize transparency and to allow for public comment through consideration and adoption at a publicly noticed meeting.

Recommendation

It is recommended that the Board adopt Resolution #968 Determining that the Public Interest and Necessity Require Acquisition of Easements for Public Purposes and Authorizing Proceedings Under Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure, Including, but not Limited to, Sections 1240.120, 1240.125, and 1245.220, for a Portion of the Property Described as 4395 Monterey Road, Gilroy, California, Assessor's Parcel Number 808-23-004, for the Gilroy Campus Modernization Project.

RESOLUTION #968

BEFORE THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT SANTA CLARA COUNTY, CALIFORNIA

In the Matter of the Gifroy Campus Modernization Project) A RESOLUTION DETERMINING THAT THE
) PUBLIC INTEREST AND NECESSITY REQUIRE

ACQUISITION OF EASEMENTS FOR PUBLIC
PURPOSES AND AUTHORIZING PROCEEDINGS

) UNDER EDUCATION CODE SECTION 70902(b)(13)

) AND TITLE 7 OF PART 3 OF THE CODE OF CIVIL

) PROCEDURE, INCLUDING, BUT NOT LIMITED TO,

) SECTIONS 1240.120, 1240.125, AND 1245.220, FOR A

) PORTION OF THE PROPERTY DESCRIBED AS 4395

) MONTEREY ROAD, GILROY, CALIFORNIA,

) ASSESSOR'S PARCEL NUMBER 808-23-004, FOR THE

) GILROY CAMPUS MODERNIZATION PROJECT

WHEREAS, the Board of Trustees (the "Board") of the Gavilan Joint Community College District (the "College") determines that it is necessary to acquire certain real property, which is needed by the College for use in connection with the Gilroy Campus Modernization Project. Said real property is generally located on the west side of Santa Teresa Boulevard, between Mesa Road and Castro Valley Road, in the unincorporated area of Santa Clara County, south of the City of Gilroy. The property subject to this Resolution consists of a portion of a parcel of property, owned by Bert D. Millen and Gloria P. Millen, Trustees under Revocable Trust Agreement, Dated August 22, 1980; Linda Anne 'elliccione, Diana Marie Pelliccione, Lisa Anne Fellows, and Deborah Marie Sigala as Trustees of the Testamentary Trust Created by Judgment of Final Distribution filed March 9, 1990 in the Estate of Paul F. Pelliccione, also known as Paul Pelliccione, deceased, Case No. 121211, Superior Court of California, County of Santa Clara, and Recorded March 23, 1990 in Book L298, Page 52, Santa Clara County Official Records; Mark P. Millen, and Michael D. Millen (collectively, "Owners"), and located on the east side of Santa Teresa Boulevard. The entire parcel bears Assessor's Parcel Number 808-23-004 ("Property") and the property sought to be acquired consists of easement interests that are legally described in Exhibit "A" hereto and depicted in Exhibit "B" (the "Easements"); and

WHEREAS, the project for which this Resolution ("the Resolution of Necessity") is being considered is a water tank replacement project by the College as part of its Gilroy Campus Modernization Project, which is necessary to protect the safety of the College's students and faculty. Specifically, the College desires to add more water tank storage to reduce the refill rate of its tanks, as well as to add a second water well to provide redundancy and effectively double the College's well production rate (the "Project"). The Project is intended to respond to concerns raised by the Fire Marshal regarding fire supply recovery after a fire event on campus. Currently, the National Fire Protection Agency requires fire supply to be fully recovered in 8 hours, which would require the College's current well and pump to be modified to produce 1,300 GPM. This demand is beyond the capacity of the existing well. In addition to fire re-fill rates, the College also needs a back-up source of water in case the current well fails; and

WHEREAS, the Board approved the Project and a related Mitigated Negative Declaration (MND) for the Project pursuant to the provisions of the California Environmental Quality Act (SR133047.DOC)

("CEQA"; Pub. Resources Code, 3 21000, et seq.; Cal. Code Regs., tit. 1 3 15000, et seq.) on November 13, 2012, and thereafter on March 11, 2014, approved an Addendum pursuant to CEQA; and

WHEREAS, a Notice of Hearing on the intent of the Board to adopt this Resolution of Necessity was mailed to all owners of record of the Property in accordance with California Code of Civil Procedure section 1245.235(a) and (b). Said Notice of Hearing advised said persons of their right to be heard on the matters referred to therein on the date and at the time and place stated therein; and

WHEREAS, the hearing set out on the Notice of Hearing was held on March 11, 2014, at the time and place stated in the Notice, and all interested parties were given an opportunity to be heard. The hearing was then closed and the matter considered by the Board for decision, all as required by law; and

WHEREAS, the Board has fully considered the agenda report and all references therein, any evidence and comments presented during the Board's consideration of this matter, and other reports pertaining to the Project presented to the Board at its March 11, 2014, Board meeting, all of which are incorporated herein by this reference, pertaining to the decision to approve the Project; and

WHEREAS, the Board received and considered all relevant factors, information, and evidence bearing on the findings herein.

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT, BY A VOTE OF NOT LESS THAN 2/3 OF ITS MEMBERS, DECLARES, FINDS AND RESOLVES AS FOLLOWS:

- 1. The foregoing recitals are true and correct and, by this reference, incorporated herein as if set forth in full. The agenda report pertaining to this Resolution of Necessity and all attachments to this Resolution are also incorporated by reference.
- 2. The College is authorized to acquire the Easements for the Project pursuant to Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure, including, but not limited to, Sections 1240.120, 1240.125, and 1245.220, and Section 19 of Article I of the California Constitution.
- 3. Based on all evidence presented in this matter, the Board of Trustees specifically finds and determines that:
 - a. The public interest and necessity require the proposed Project. The acquisition of the Easements is necessary to add a second water well to provide redundancy and double the College's well production rate, to respond to concerns raised by the Fire Marshal regarding fire supply recovery after a fire event on the College's campus, and to provide a back-up source of water in case the current well fails.
 - b. The proposed Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury.
 - c. The Easements are necessary for the proposed Project.
 - d. The College has made pre-condemnation offers to acquire the Easements for the Project to the owners of record of the Property in accordance with California Government Code section 7267.2.

- e. The College has complied with all conditions and statutory requirements necessary to exercise the powers granted the College by Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure ("the right to take") to acquire the Easements described herein.
- f. The College has fully complied with all provisions of the California Environmental Quality Act (Pub. Resources Code, §§ 21000, et seq.; Cal. Code Regs., tit. 14, §§ 15000, et seq.) for the Project.
- 4. The Property, and the Easements sought to be acquired, are located within the territorial boundaries of the College.
- 5. The College plans that the date of use of the Easements for the Project will be within seven years from the date the complaint for eminent domain proceedings is filed, pursuant to Code of Civil Procedure section 1240.220(a).
- 6. The College's legal counsel is authorized and directed to institute and conduct to conclusion, in the name of the College, proceedings in accordance with the provisions of the Constitution of the State of California and pursuant to Education Code Section 70902(b)(13) and Title 7 of Part 3 of the Code of Civil Procedure to acquire the Easements, in the name of the College, and such other interests as may be necessary for construction and operation of the Project.
- 7. Legal counsel, and the College through its President or his designee, are authorized to deposit the probable amount of compensation with the Treasury of the State of California, to seek an order for a prejudgment possession consistent with the needs of the College, and to perform all other acts as convenient or necessary to acquire the Easements for the Project.
- 8. The President, and his designees, is also authorized to execute such agreements, certificates, deeds, and other instruments as may be necessary or convenient to facilitate acquisition of the Easements through voluntary Purchase Agreement in lieu of eminent domain, and to expend such funds as may be needed for said purposes.

This Resolution was adopted at a duly-called meeting of the Gavilan Joint Community College District held on March 11, 2014.

Re: Bid Analysis

Water Storage Tank, Distribution, & Well Improvements

Gavilan Community College

Dear Terry:

We are pleased to provide our analysis of the bid results for the above referenced project.

Gilbane reviewed the apparent low bidder, Anderson Pacific Engineering Construction Company's bid and determined that they submitted a responsive bid and appear to be a responsible bidder. Anderson Pacific Engineering Construction confirmed their base bid amount of \$4,375,000 and stated they would honor it.

Please refer to our analysis and findings below for more detail.

Bid Analysis

The following items were considered in our bid analysis:

- 1. Comparative Pricing
- 2. Bond Review
- 3. Company History
- 4. Bid Form Review
- 5. Reference Check
- 6. Contractor License Check

1. Comparative Pricing (See attached Bid Tabulation Form)

A.	Budget	\$5,328,000
В.	Low Responsive Bid	\$4,375,000
C.	Average Bid	\$4,719,416
D.	High Bid	\$5,340,000
E.	Number of Contractors Contacted	25
F.	Number of Plan Holders	19
G.	Number of Potential Bidders (Mandatory Pre-Bid Walk)	10
H.	Number of Bidders	4

2. Bond Review

A. Contractor's Bid Bond

Anderson Pacific Engineering Construction has provided a Bid Bond in the required amount of 10% of their bid amount. The surety is Liberty Mutual. Their address is 175 Berkeley Street, Boston, Massachusetts, 021126. The contact number is (415) 486-7576.

B. Contractor's License Bond

All California contractors are required to file a bond with the State in the amount of \$12,500. The bond number is 5415451 and the effective date is 1/01/07 with Safeco Insurance Company of America. Their address is 175 Berkeley Street, Boston, Massachusetts, 02116.

3. Company History & Experience

Anderson Pacific Engineering Construction has indicated they have been in the general contracting business under this name for 47 years.

4. Bid Form Review

A.	Contractor's Proposal Form	No Exception Taken
В.	Bid Pricing	No Exception Taken
C.	Addenda Acknowledgement	No Exception Taken
D.	Contractor's License Information	No Exception Taken
E.	Subcontractor's List	No Exception Taken
F.	Non-Collusion Affidavit	No Exception Taken
G.	Bid Security	No Exception Taken

5. Reference Check

- A. Stanford University The owner's representative stated Anderson Pacific Engineering Construction Company has performed a couple of projects successfully for them. These projects varied in sizes. He mentioned that they were cooperative and team oriented and had minimal problems with budget or schedule issues. He said if he could he would hire Anderson Pacific Engineering Construction Company for all his projects. He said he recommends Anderson Pacific Engineering Construction Company for the Water Storage Tank, Distribution, & Well Improvements.
- B. Infrastructure Engineering Keith Marshal from Infrastructure Engineering highly recommends Anderson Pacific Engineering Construction. He stated that Anderson Pacific Engineering Construction Company worked with him on an 8 million gallon water reservoir for the city of Mountain View. He stated there were no budget problems with the project and the project ran smoothly. He also mentioned that Anderson

Bid Analysis Water Storage Tank, Distribution, & Well Improvements 03/03/2014 Page 3

> Pacific Engineering Construction was proactive on Request for Information (RFI). Anderson Pacific Engineering Construction never submitted frivolous RFIs and any change orders submitted complemented the project.

THIRD AMENDMENT TO AGREEMENT FOR CONSULTANT SERVICES

This Third Amendment to Agreement for Consultant Services ("3rd Amendment") is entered into this 14th day of May, 2014 by and between Gavilan Joint Community College District ("District") and Rodriguez Real Estate Services, LLC ("Consultant") with reference to the following Recitals, all of which are incorporated herein by this reference.

WHEREAS, on or about April 1, 2012, the District and the Consultant entered into a written agreement entitled "Agreement for Consultant Services" ("Agreement") which set forth terms and conditions for certain real estate consulting services to be completed by the Consultant for the District.

WHEREAS, on or about July 11, 2012, the District and the Consultant entered into a written amendment to the Agreement entitled "First Amendment to Agreement for Consultant Services ("1st Amendment") which modified the consulting services to be completed by the Consultant under the Agreement, the compensation due the Consultant from the District for the revised scope of consulting services and extended the Term of the Agreement to June 30, 2013.

WHEREAS, on or about September 10, 2013, the District and the Consultant entered into a written amendment to the Agreement entitled "Second Amendment to Agreement for Consultant Services ("2nd Amendment") which modified the business name and form of entity to Rodriguez Real Estate Services, LLC., consulting services to be completed by the Consultant under the Agreement, the compensation due the Consultant from the District for the revised scope of consulting services and extended the Term of the Agreement to June 30, 2014.

WHEREAS, the District and the Consultant desire to amend terms and conditions of the Agreement and the 1^{st} and 2^{nd} Amendment, as set forth herein.

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of which is acknowledged by the District and the Consultant, the District and the Consultant agree as follows:

- Extension of Agreement Term. The Term of the Agreement is extended from June 30, 2014 to June 30, 2015 ("Extended Term").
- 2. Adjustment of Contract Price. The Contract Price under Paragraph 3.1 of the Agreement is modified by this 3rd Amendment. For the Consultant Services authorized and directed by the District during the Extended Term, the Consultant shall be paid a not to exceed Contract Price of an additional Seventy Five Thousand Dollars (\$75,000) based on the Consultant's billing rate of One Hundred Ten Dollars (\$110) per hour.
- 3. <u>No Other Modifications</u>. Except as expressly set forth above, there are no other modifications or amendments to the Agreement or the 1st Amendment.

IN WITNESS HEREOF, the District and the Consultant have executed this 3rd Amendment as of the date set forth above.

RESOLUTION NO. 974

BEFORE THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT

INITIAL PROJECT PROPOSALS FOR:

Library/Media remodel, student services/administrative center,

THEATER REPLACEMENT,

SAN BENITO COUNTY CENTER-SITE DEVELOPMENT & PHASE I ACADEMIC FACILITIES, AND
COYOTE VALLEY-SITE DEVELOPMENT & PHASE 1 ACADEMIC FACILITIES

WHEREAS, under provisions of Education Code §§70901(B) (5), the Board of Governors of the California Community Colleges ("BOG") has established regulations, rules and policies for community college districts' development and updating of Facilities Master Plans and to establish facilities planning space and utilization standards to determine eligibility amongst community college districts' proposed projects for state construction funds ("the Project Approval Process").

WHEREAS, on or about July 1, 2014, the District will submit its Five Year Facilities Master Plan to the BOG for the 2016-2020 Fiscal Years ("the Five Year Plan").

WHEREAS, the Project Approval Process requires that for each project identified by the District in the Five Year Plan be submitted for review as an Initial Project Proposal ("IPP").

WHEREAS, in conformity with applicable BOG rules and regulations, the District's facilities staff and District consultants have developed IPPs for the following projects identified in the Five Year Plan: Library/Media Remodel, Student Services/Administrative Center, Theater Replacement, San Benito County Center-Site Development & Phase 1 Academic Facilities, and Coyote Valley-Site Development & Phase 1 Academic Facilities.

NOW, THEREFORE, the following Resolution is adopted:

RESOLVED that the President/Superintendent and/or his designee are hereby, authorized to take such actions or to cause actions to be taken to submit the IPPs for Library/Media Remodel, Student Services/Administrative Center, Theater Replacement, San Benito County Center-Site Development & Phase 1 Academic Facilities, and Coyote Valley-Site Development & Phase 1 Academic Facilities to the BOG for review and approval; such actions shall include without limitation execution of applications and authentication forms on behalf of the District for such Projects.

THE FOREGOING RESOLUTION was adopted by the Board of Trustees of the Gavilan Joint Community College District at a meeting of the Board of Trustees held on June 10, 2014:

City of Hollister Development Services

375 Fifth Street, Hollister, CA 95023

Via First-Class Mail

April 30, 2014

Mr. Kent Childs, President Gavilan Joint Community College District and Santa Clara County Equalization Aid 5055 Santa Teresa Boulevard Gilroy, California 95020

Subordination Request Relating to Refunding Bonds Issued by the Successor Agency to the Redevelopment Agency of the City of Hollister for the Hollister Community Development Project

Dear Mr. Childs,

I am writing to the Gavilan Joint Community District and Santa Clara County Equalization Aid (the "Taxing Entities") on behalf of the Successor Agency to the Redevelopment Agency of the City of Hollister (the "Successor Agency") with respect to its Hollister Development Project (the "Project") pursuant to Section 34177.5(c) of the California Health and Safety Code (the "Code"). As you are aware, the Agency may, with a taxing entity's approval, subordinate amounts (payable from tax increments of a redevelopment project area) that the Successor Agency is required to pay such taxing entity pursuant to Section 33607.5 of the Code (the "Statutory Pass-through Payments") to bonds issued by the former Redevelopment Agency of the City of Hollister ("former Redevelopment Agency") for the same project area.

In August 2003, the former Redevelopment Agency issued its \$35,000,000 Hollister Community Development Project Tax Allocation Bonds, Series 2003 (the "2003 Bonds"). Subsequently in July 2009, the former Redevelopment Agency issued its \$8,000,000 Hollister Community Development Project Tax Allocation Bonds, Series 2009 (the "2009 Bonds"). At this time, the Successor Agency expects to issue its Hollister Community Development Project 2014 Tax Allocation Refunding Bonds (the "Series 2014 Bonds"), in a principal amount not to exceed \$36,000,000 to refund and defease all or a portion of the outstanding 2003 Bonds. This refunding is expected to reduce the Agency's annual debt payment obligations. The Taxing entity's share of Statutory Pass-through Payments was previously subordinated to the 2003 Bonds and the 2009 Bonds. Subordination of the

2009 Bonds was also previously requested and subsequently approved. The Series 2014 Bonds will be secured and payable by a pledge of tax revenues on a parity basis with the pledge of tax revenues to the outstanding 2009 Bonds and any unrefunded 2003 Bonds. By this letter, the Successor Agency requests that the Taxing Entity agree to the subordination of Statutory Pass-through Payments that the Successor Agency is required to pay to the Taxing Entity in connection with the Project Area to the Successor Agency's payment obligations for the 2003 Bonds, 2009 Bonds, and the Series 2014 Bonds.

The Successor Agency is planning to issue the Series 2014 Bonds in August or September 2014. Enclosed for your review, pursuant to Section 34177.5(c)(2) of the Code, is a tax increment revenue projection summary, which includes a debt service coverage analysis prepared by Rosenow Spevacek Group Inc. (the "Fiscal Consultant"). The Fiscal Consultant's analysis shows that the Successor Agency can reasonably expect to have sufficient funds available to pay debt service on the 2009 Bonds, the Series 2014 Bonds, any unrefunded 2003 Bonds, and all of the Statutory Pass-through Payments and/or payments pursuant to cooperative agreements owed by the Successor Agency to the various affected taxing entities for the Project Area. (The enclosed tables show the annual payments on the currently outstanding 2003 Bonds and the 2009 Bonds; the 2014 refunding will *reduce* the annual debt payments, further enhancing capacity to make the Statutory Pass-through Payments.)

For the benefit of the Successor Agency's records, please complete the attached Acknowledgement and return it to me no later than June 14, 2014. The Agency also requests that the governing board of the Taxing Entities take official action, by resolution or motion, to formally approve the subordination.

Please note that, in accordance with Section 33607.5(e)(3) of the Code, if the Taxing Entity does not respond to the requested subordination within forty-five (45) days of receipt of this letter (which would be June 13, 2014), the subordination will be automatically deemed approved by the Taxing Entity and such approval shall be final and conclusive. Furthermore, to disapprove this subordination, the Taxing Entity must find, based on substantial evidence, that the Successor Agency will not be able to pay the debt service on the 2009 Bonds, the Series 2014 Bonds, any unrefunded 2003 Bonds, and the Statutory Pass-through Payments that it is required to pay the Taxing Entity.

Thank you in advance for your cooperation in this matter. If you have any questions regarding this matter, please do not hesitate to contact me at 831.636.4300 Extension 15.

Sincerely,

William Avera, City Manager

on behalf of the Successor Agency to the Redevelopment Agency of the City of Hollister

Enclosures

ACKNOWLEDGEMENT

(Hollister Community Development Project)

In response to the request by the Successor Agency to the Redevelopment Agency of the City of Hollister (the "Successor Agency"), set forth in a letter dated April 30, 2014, from William Avera on behalf of the Agency (the "Subordination Request"), to approve the Successor Agency's subordination of Statutory Pass-through Payments, the Taxing Entity hereby confirms its approval of the subordination of the Successor Agency's obligation to pay Statutory Pass-through Payments to the Taxing Entity in connection with the Holliste Community Development Project to the Successor Agency's payment obligations for the 2009 Bonds, the Series 2014 Bonds, and any remaining 2003 Bonds. The governing board of the Taxing Entity has taken formal action or June 10, , 2014, to acknowledge and approve this subordination. A copy of the related [resolution / minutes] is enclosed. All capitalized terms used but not defined in this Acknowledgement have the meaning ascribed to them in the Subordination Request. IN WITNESS WHEREOF, the undersigned has caused this Acknowledgement to be signed by its authorized representative on this 10th day of June , 2014.
