To all Faculty and Staff,

Hi! I've finished updating the PowerPoint 2010 Quick Tips page for your resource. I also wanted to share my Windows 7 Online Workbook that I use with my students (ignore the quizzes). I've also added some newer information to the Learning: Styles, Strategies & Outcomes website that a couple of faculty have contributed to in the past (and still can). I'm keeping the PowerPoint 2007 Quick Tips website active in case you haven't upgraded yet. The links are listed below and on the TLC website under Resources. I wanted to share these with you before the summer break.  
Enjoy!Jane
