

Gavilan College

Mentee Professional Goals

Mentee's Name: _____

Mentee's Department: _____

Mentor's Name: _____

Mentor's Department: _____

- Why are you participating in the Mentor Program? What do you hope to achieve?

- What are your professional strengths and interests?

- What issues are you currently experiencing? What questions do you have?

- What goal or goals would you like to achieve by the end of the semester/year?

- What specifically would you like your mentor to help you with during your time together (student engagement, community building, course design, time management, planning, professional learning, student/faculty resources, assessments, etc.)?

The mentor and mentee should establish a timeline for reaching semester goals. This timeline should be revisited, adjusted if needed, and used to assess progress, as well as used to determine where further support is needed.
