

## STATUS UPDATES

### IEC STATUS UPDATE

**Academic Year**                      **Name of Program:**                      Administration of Justice  
**2012—2013**                              **Date of last review:**                      2010-2011

Instructions:

- List the recommendation(s) made by the IEC committee as a result of your review (see review recommendations on IEC site).
- Provide an update on any progress you have made on the recommendation(s) since the review.
- Please provide data if available.

Recommendation:

Due to increasing enrollments, and the need for faculty with experience in specific specialties within the Administration of Justice discipline, the program should work with administration to hire additional adjunct faculty with the desired expertise to accommodate the program's growth.

Progress:

No progress made, due to budget restraints and hiring freeze. AJ remains on the 'official' hiring plan and is slotted to receive an additional faculty member.
